

FAR ROCKAWAY'S POPULATION GROWING

FAR ROCKAWAY, L. I., July 3.—Greater New York has emptied a good-sized share of its populace into this particular neighborhood during the last few days of stifling heat. From now until the middle of July there will be a constant stream of trunks and handboxes from the railroad station to the various hotels and cottages. But those who are already here are taking an unfair advantage of those who are not. They are starting in to enjoy themselves in the various ways peculiar to Far Rockaway, without waiting for their tardy neighbors.

During the last week bluefish had the stage as the star pastime. It must not be supposed that the men went bluefishing and the women enjoyed themselves on land. On the contrary, some of the most expert bluefish anglers here are of the weaker sex. Far Rockaway Summer girls are not the kind to be daunted by fears of seaickness and squalls. One of them, Miss Susie Shields, caught seven bluefish the other day. They were big ones, too, and the young woman had all she could do to bring them in. This is the best catch of the season made by a woman. Miss Shields's father, who was with her when she made the catch, brought home forty. But he is a man, and his catch, of course, doesn't throw any discredit upon his daughter's.

Not only bluefish, but white flounder, weakfish and sea bass are also being caught in the bay. Sportsmen also began to hunt for plovers and meadow snipe on Thursday, as the law permits them to be shot from July. So far no very big hauls have been reported.

Several tennis courts have been prepared for active duty. These connected with the United States Hotel were lively throughout the week with white dandified players. It is not unlikely that a tournament will be arranged to take place soon. Last year tennis and other old favorites among outdoor sports seemed to suffer as a result of the bicycle craze. Bicycling now seems to have settled down to a steady basis, and its devotees are again sparing some of their time for their old amusements.

Preparations on a generous scale are being made to make the celebration of Independence Day to-morrow as lively and enjoyable as possible, for aside from its national patriotic significance, the Fourth of July always means the great starting day of the real active Summer season here. Fireworks will light up the ocean shore at night, after the firecrackers and bombs in juvenile hands have snapped and banged throughout the day.

At many of the hotels the real celebration was last evening, when hops were held. In several instances these hops were the first affairs of the kind for the season, and they were tinged with a decided Fourth of July coloring. Bunting, Japanese lanterns and tricolor electric lights were brought into requisition for this purpose.

Bathing is a standard attraction here, which it is only necessary to mention when there is something special in connection with it. During the past week the decidedly hot weather has been such a thing. Hence it is proper to mention that while the sun beat down so ardently that a tallow candle would not remain perpendicular for three minutes, and everybody was warm and ill-natured, the surf afforded a welcome and an available escape, which was very numerous taken advantage of.

The concerts at the United States Hotel pavilion began Thursday. Hereafter hops will be held there twice a week on Wednesday and Saturday evenings. The Ocean Hotel and the Tack-a-pou-sha also have enjoyable music.

Among the cottagers who have arrived are Mr. and Mrs. J. C. Stratton, who are occupying the McKenna cottage, near Cedar Lawn. Dr. J. Mandel and family have also arrived and are at the McGuire cottage.

Among the guests registered during the week at the Ocean Hotel are the Misses Malone, Mr. and Mrs. E. P. Miller, John P. Smith, Henry Heubens, Henry W. Seehel, J. L. Cohen, M. Rosenberg, Jas. J. J.; M. P. Master, Chesterstown, Md.

SOUTHAMPTON BATHERS OUT IN FORCE.

Southampton, L. I., July 3.—The bathing season opened Thursday, the 1st of July. For years this day has been consecrated to Neptune, and the fair daughters of wealth and fashion then pay him homage, wane their bright plumage, adorned in simple garb.

There was an unusually large gathering at the beach, which receives the full force of the Atlantic's surf, as the day was very warm. The hour for bathing for the cottagers is between 1 and 2 in the afternoon, the people of lesser social lustre using the beach in the morning.

Last night the opening reception at the Meadow Club was given, Landers, of the Hotel Waldorf orchestra, furnishing the music for the dance. The attendance was not as large as was expected, as a considerable number of the relatives and immediate friends of the late Judge Kilbreth were absent. The capacity of the club's dining hall and ball room was, however, fairly well taxed and the affair was declared a success. Several new faces were seen and a number of "buds" had their initial unfolding.

The plan for a soldiers' and sailors' monument for Southampton has been liberally encouraged by the cottagers, the amount needed—\$1,200—being practically all subscribed. The monument will be erected this Summer.

Francis L. Wellman and family are installed in their beautiful cottage Wahfried. Mrs. Wellman, nee Emma Juch, is a great social favorite.

Mr. and Mrs. W. Harmon Brown and their younger daughters will spend part of the Summer in Canada. Miss Harmon-Brown is to sail for Europe this month for a two months' tour.

Salem H. Wales, of New York, will preside at the public meeting in Memorial Hall Monday morning, when Independence Day will be celebrated. Elihu Root and E. R. Kennedy will address the meeting, which will be largely attended by the cottagers.

The athletic club will also have several events of interest, and bicycle races will also be held, several well-known New York amateurs being expected to enter.

Dr. Baker, of Brooklyn, has been visiting at the home of Mrs. Frank White.

Nearly all of the Summer residents have arrived from their New York homes, the following being practically a complete list:
